# Introduction

A creative strategy and design studio is a place for people to inspire, heal, learn, encourage, challenge, and lift their strength. By inspiring and encouraging the strength of creativity, this studio works in multiple mediums to produce solid, rare, & stunning work for clients to experience.

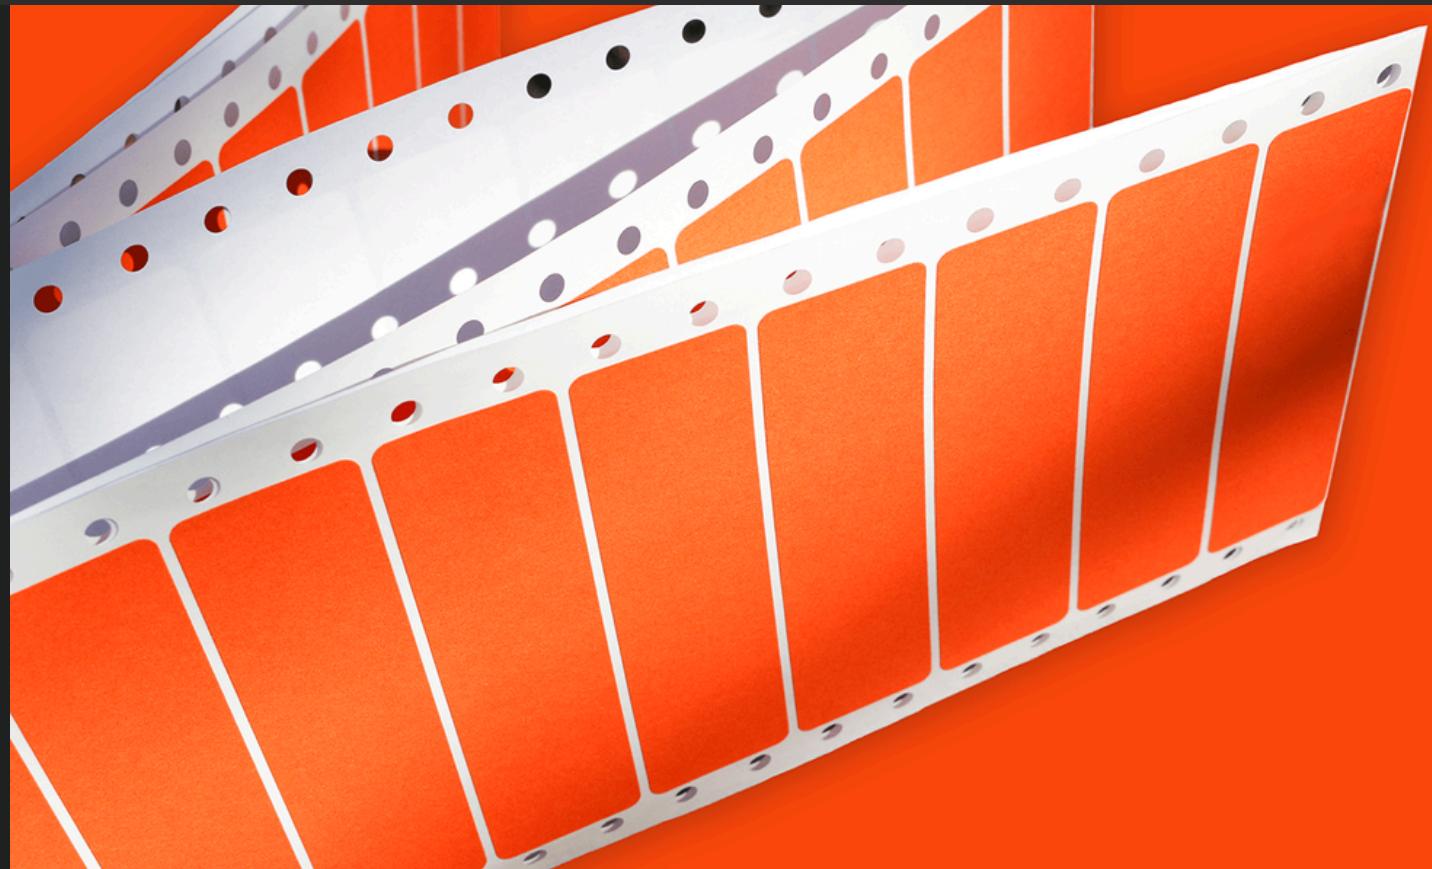

## About Me

I have always been a storyteller and artist long before I graduated college with a dual major in 2020. It all started with drawing silly imaginary pieces when I was younger until the day I picked up a pencil and discovered many different ways to express myself creatively.
